SUMMARY

- UX and Health HCI researcher completing a PhD focused on user-centered, evidence-based digital health solutions for mental health and behavior change.
- Experienced in qualitative and mixed-methods research, usability testing, and turning insights into actionable design strategies.
- Passionate about creating digital tools that empower users to improve well-being and support personalized healthcare experiences
- Brings prior industry experience with SQL and a strong ability to refresh and learn technical tools quickly.

EDUCATION

University Of Washington | Seattle, WA | 2026
Ph.D. Computer Science & Engineering - GPA 3.77
M.S. Computer Science & Engineering | 2024
GPA 3.81

Kennesaw State University | Kennesaw, GA | 2021
M.S. Healthcare Management & Informatics - GPA 4.0
B.B.A. Information Systems | 2015
Minor: Applied Statistics - GPA 3.49

SCHOLARSHIPS & FELLOWSHIPS

TL1 Trainee, Institute of Translational Health Sciences (ITHS) | Seattle, WA

July 2023 – Jun 2024

Participated in the ITHS TL1 Translational Research Training Program, a one-year mentored initiative for predoctoral students. It provided training, career development, and Team Science skills through mentorship and collaboration, equipping the participant to become an impactful translational researcher.

ARCS Foundation Scholar, Achievement Rewards for College Scientists (ARCS) Foundation | Seattle, WA

July 2023 – Jun 2024

ARCS Light in Honor of Carmen Gayton

College of Engineering Dean's Fellowship, University of Washington | Seattle, WA

Sep 2021 – May 2022

Richard Ladner & Paul G. Allen Diamond Fellowship for Graduate Student Support

PROFESSIONAL EXPERIENCE

Graduate Researcher, University of Washington | Seattle, WA

May 2021- Current

Health HCI & Digital Health Projects:

University of Washington / Fred Hutchinson Cancer Center / Kaiser Permanente Washington / UW School of Nursing

- Designed, developed, and evaluated digital health platforms using human-centered design principles, including the UW Scope platform for collaborative care in cancer and depression.
- Led qualitative and mixed-methods research, conducting design and usability interviews with patients, clinicians, and stakeholders to inform platform improvements and enhance patient engagement.
- Conducted research for a personalized migraine self-tracking app, integrating user insights to support behavioral change, improve adherence, and align data collection with patient and provider goals.
- Evaluated a home blood pressure monitoring program, applying data analysis and usability testing to optimize implementation and patient experience.
- Analyzed patient feedback for a self-management intervention for IBS and depression, facilitating co-design sessions to improve intervention design, personalization, and usability.
- Translated research findings into evidence-based, user-centered solutions that enhance digital health experiences, accessibility, and care outcomes.

TL1 Trainee, Institute of Translational Health Sciences (ITHS) | Seattle, WA

Jun 2023 – May 2024

- Completed the ITHS TL1 Translational Research Training Program, gaining mentorship, Team Science skills, and interdisciplinary research experience to support high-impact translational research projects.

CS Research Mentorship, Google | Seattle, WA

Sep 2022 – Dec 2022

- Google CS Research Mentorship Program

Graduate Research Assistant, BrainLab at Kennesaw State University | Kennesaw, GA

Sep 2019 – Jul 2021

- Managed a research data library at BrainLab, creating a structured framework for efficient data entry, retrieval, and accessibility.
- Conducted data cleaning, statistical analysis, and visualization, delivering actionable insights for multiple studies.
- Presented complex experimental results to researchers, stakeholders, and peers, translating findings into clear, strategic recommendations.
- Leveraged EEG and Tobii eye-tracking to analyze consumer cognitive and visual responses, informing user engagement and brand perception.

Data Analyst, JDC Group contracted to The Coca-Cola Company | Atlanta, GA

Sep 2018 – Mar 2020

- Defined and implemented client-specific data standards, ensuring consistency, accuracy, and compliance across multiple projects.
- Developed and executed SQL scripts to clean, consolidate, and optimize datasets, significantly improving data quality and accessibility for stakeholders.
- Utilized SAP HANA and S/4 HANA platforms to enhance data processing, management, and reporting capabilities, supporting efficient decision-making.

Data Analyst, Griffin & Strong, P.C. Griffin & Strong, P.C. | Atlanta, GA

Mar 2015 – Sep 2018

- Designed and maintained databases and data-collection interfaces, ensuring high-quality, reliable datasets and resolving technical or IT issues as they arose.
- Conducted regression and statistical analyses for Disparity Studies, generating insights that informed research decisions and supported equity-focused outcomes.

PROFESSIONAL SERVICE

- **Reviewer**, ACM CHI Conference on Human Factors in Computing Systems
- **Student Volunteer**, ACM CHI Conference on Human Factors in Computing Systems
- **Treasurer**, UW CSE Student Snack Room – Managed budgeting and supplies to maintain a student-led community space.
- **Event Organizer**, Annual End-of-Year Gala – Coordinated logistics, programming, and community engagement for the department's largest social event.
- **Graduate Mentor** – Mentored groups of 3–4 incoming first-year Ph.D. students, providing academic, professional, and personal guidance during their program transition. Met monthly with the group and stayed in contact after the year.
- **Community Organizer** – Planned and hosted multiple *TGIF gatherings* and community-building events for students and lab members.
- **Panelist**, *Information Workshops for Prospective Students* – Shared insights on the Ph.D. experience, admissions, and research opportunities.
- **Recruitment Support** – Held one-on-one meetings throughout the year and led lab tours for prospective and incoming students during recruitment and orientation events.
- **Orientation Organizer** – Coordinated a two-day orientation program for first-year Ph.D. students, including peer mentoring and resource sessions.
- **Teaching Assistant**, *Undergraduate Research Sequence* – Supported a year-long research methods course series for undergraduate students interested in research careers.
- **Event Co-Organizer**, *Black Graduate Student Association (BGSA)* – Helped host a visiting speaker event to promote diversity and community engagement in graduate education.
